Macedonian Post Union on strike

On 31.03.2022 the Macedonian Post Union, a member of the Trade Union of Postal and Telecommunication Operators of Macedonia (SPTOM), started a procedure for a general strike of the Post employees.

The demands of the employees are salary increases! For more than 30 years the salaries of the employees in the post office have not been increased. Other demands of the strike are providing working conditions as well as work equipment and complete reorganization of the work in the Post Office.

The strike started on April 14, 2022, in the meantime we started negotiations with the management for realization of the requests, because the first priority request for salary increase was accepted by the management team. They put the strike on hold until April 27, 2022, the negotiations continue.

SPTOM (President Boro Veligdenov), is member of EUROFEDOP
